

Press release

Automatisation JRT inc has just been acquired!

Automatisation JRT inc is proud to announce that it has just been acquired by three of its own employees. Indeed, Luc Hébert, Rémi Rodrigue and Stéphan Côté will now take the lead of the company founded in 1984 by Richard Tremblay and Jacques Tardif. With new owners comes new energy, and this trio have more than a couple of projects in their sights. Despite these important changes, you can count on one constant: the same JRT quality standard that has made our reputation since our inception. We would like to say Welcome and Congratulations to our new owners. Now more than ever, go a step higher with JRT!

What's next!

Automatisation JRT inc is always there with the same services and expertises :

- Our multidisciplinary team can help you in different stages of your project realization: design, manufacturing, installation and after-sales service.
- Elevators, Industrial Processes, Software Solutions, Water Treatment : our experts have you covered.
- Our sales and distribution division also offers a complete inventory of parts, and has a direct link with all of our suppliers.
- All our divisions are supported by our technical staff, available 24 hours a day, 7 days a week.

Need information? Want to say congratulation? You can reach us at info@JRTinc.com
